Mr. Fixit

Synopsis

He's good with more than just his hands. I've known Caleb Strong for over a year. We have a special kind of friendship—we make crude comments, double entendres, and tease each other mercilessly. But we've never crossed that line. We're just friends. Until we start working together to renovate my childhood home. Seeing him shirtless working out in the sun is making me want something more. The way his corded forearms twist every screw, the way his biceps flex as he swings his hammer... I want to feel what that brute strength can do to me. I know once we cross that line, there's no turning back. But I won't deny it anymore, I want him to make a move. I have needs, and he's got the tool for the job. We can still be friends after, right? It'll just be casual. Until it isn't.

Customer Reviews

After meeting Cassie and Caleb in a previous book, I couldn't wait for this one to get their story. With all the teasing and banter, I wondered how long it would take before their friendship became more. I loved their story. I loved how close they were and how their feelings grew to be more. The sex was hot. Caleb is hot. I even loved following the development of the project they both worked

on. It was fun to catch up with couples from previous books too. Over all, I thoroughly enjoyed this book. I think it was my favourite out of the series. I can't wait for the next one.

EEEEK!When this book hit my Kindle the world around me stopped, the book I was reading got put aside. You might think I am exaggerating here, but folks at this point I am completely invested in these characters, and as pitiful, as it probably sounds I get excited reading the stories Lauren Landish brings to life!Especially, Caleb and Cassie!When the two work on a house together, the sexual tensions are running high. Finally giving in, agreeing that FWB would be better than skirting around the issue. In the end, will that be enough for this sex deprived, emotional train wreck sarcastic, pair?This sexy, fabulously funny, adventurous pair's tale did not disappoint!In fact, I was sucked in by the emotional tug that wrapped up in their separate internal struggles, and waving the white flag at the amount of hotness these two can manage throughout this read!While I marveled in the complexity of the two- they still had their moments of fun, flirtatious banter and antics adding to the already amazing storyline- this was a book I read cover to digital cover in one sitting. No way was I getting anything else accomplished until I knew what Caleb and Cassie had accomplished!Once again, Lauren Landish has blown my expectations out of the water!I am as always looking forward to the next book!

This is a hot and funny enemies to friends to lovers story. (Though the enemies part was in previous books in the Irresistible Bachelors Books.) It is a stand alone but part of a series. It is centered around a different couple, but has many of the same characters from the other books. There is plenty of steam. Even though both the male and female lead want nothing to do with being in a committed relationship, they find themselves falling for each other. They have reasons for not wanting things to get serious, and it makes them both vulnerable and endearing. I especially liked the fact that the male lead (Caleb) isn't a jerk. He may have had casual sex often enough, he wasn't portrayed as a manwhore. He's very sweet in an unsuspecting way. (There's a scene near the end of the book that mentions a new tattoo he got... without spoiling it... it is swoon worthy!) :) And Cassie, the female lead, is a feisty strong woman. If you witnessed the banter between these two, you would know they'd end up together. Even though there are a few dark moments (when they discuss their past and why they avoid serious relationships,) it is a lighthearted read.Because of the sexual content, this is meant for readers 18+.I voluntarily reviewed an Advanced Reader Copy of this book.

I voluntarily read and reviewed an advanced copy of this book I fell in love with Caleb and Cassie in "Studmuffin" and was so excited that this was their story Cassie is a ray of sunshine she is always happy, laughing, smiling, just full of energy for someone that is only 5' 1" she carries herself like she is 6' tall. Caleb is pretty laid back but oh boy when he and Cassie get together they are hysterical, The banter between them is wonderful, The sexual innuendo's they throw at each other just flow, That is until they start working together on Cassie's huge project, then something changes. Oh when I read both Cassie's story of growing up in that house with her mom it broke my heart but when Caleb asked about her mom and she told him what had happened to her I cried. Then when Caleb finally broke down and told Cassie about Wendy it shattered me, I could totally understand why he was so anti relationship. Lauren Landish sure knows how to pull you into this world she has created, and the fact we get to see back characters in the stories just makes it even better, Now she needs to find Emily Mr Right! Oh and let's just say Cassie and Caleb are so freakin HOT together it will melt your kindle. I HIGHLY HIGHLY recommend this book

Mr. Fix-It is an entertaining, friends to lovers story about Cassie and Caleb who both work for Oliver in different ways. Caleb has his own handyman business and takes on projects doing repairs and renovations for a lot of Oliver's properties, many of which Cassie finds for Oliver. When Cassie finds that her childhood home is for sale, she's sure that this is the project she's been looking for one that can be hers from start to finish. Of course it doesn't hurt that she'll be working together with Caleb, one of her best friends that she can always be her witty, snarky self with. But what happens when they begin to see each other in a different light? I really enjoyed the advance copy of this next book in the Irresistible Bachelors series. I hadn't read the previous books in the series, but even the secondary characters are so well done that I felt like I knew them, and it made me want to go back and read their stories. Cassie and Caleb were both likeable and complex characters, and their bantering interplay and terrific chemistry were great fun to watch! If you're looking for something humorous but steamy, with a touch of angst, that will leave you satisfied at the end, you'll enjoy this one.
