Best Sellers Rank: #3,491,341 in Books (See Top 100 in Books) #83 in [Books > Teens > Education & Reference > History > Medieval](#)

Customer Reviews

Gr 7 Up-Drawing on documented primary sources and modern scholarship, these well-written books separate fact from myth and give readers a detail-rich glimpse into life during the often gruesome Middle Ages. Books are primarily focused on Western Europe, and authors describe both the rigid social and religious structures and the ignorance and brutality that were hallmarks of medieval life. They also explain how innovation and expanded trade with the Middle East brought gradual change, especially in weaponry, warfare, and medicine. Texts are supplemented with sidebars that provide longer primary source excerpts and additional information about related topics. Illustrations, which include a single map of medieval Europe and color reproductions of period art and contemporary photos of locations and weapons, add little. These books will help readers and report writers understand the reality of medieval life. Good choices for secondary libraries. (c) Copyright 2014. This excellent little book is part of the 5-book series, The Library of Medieval Times. It begins with a timeline of [Important Events of Medieval Times](#) and then looks at

medieval food and cooking, along with culture and festivals. Along the way, the reader is treated to many colorful maps and pictures. This is a very interesting look at medieval times; giving the reader a valuable window into what it was like to live in that era. I found it both informative and interesting to read. Also, it is nice that the book is short and to-the-point. I think that it's a great book!
